wreckage there was a burst of flame and electricity from the trolley slot that almost overwhelmed the crowd, which had broken through the police lines. Reserves from the West Thirty-seventh and West Forty-seventh that

The collision was between a westbound Forty-second street crosstown car and a southbound car on the Columbus and Ninth avenue line. Martin Cavstreet car, and James Riley was conductor. 'The motorman on the Ninth avenue car was Peter Hangen, of No. 265 West Fifty-second street.

Witnesses say that the southbound car came to a stop as the rules provide at the north side of the crossing, and that the westbound car was some dis- ing cown the big Republican majoritance east of the crossing at the time. The southbound car started when the ties in the counties had progressed favorwestbound car picked up speed and dashed into it, knocking it from the ably and that the success of both the track and half way across the street.

CONDUCTORS SAVED BY JUMPING.

The passengers on the west-bound car were few in number, and all burt. The motormen and conductors of both cars jumped when they saw collision was inevitable and were not even scratched.

Conflicting stories are told by Motorman Cavanagh and passengers on rolls which have been tightly tied up the west-bound car. Policeman McEntee, of the West Forty-seventh street Church of the Holy Cross, in Forty-second street, east of Ninth avenue, Mer. McCready, the pastor of the church, gave a signal to stop the car, he Rocsevelt money began to disappear, Mo., Oct. 31.—The winners of the races sahing to get aboard. The conductor signalled the motorman, according The bet that was made at 41-2 to 1 was run here to-day are as follows:

to McEntee, but instead of stopping the man seemed to put on more power.

"The car jumped ahead at full speed," said McEntee. "Apparently the motorman had lost control of the machinery, for he twisted and pulled to purpose. As we sailed over the crossing the other car loomed up right by E. C. Potter & Company, also acting by E. in front of us. I saw the motorman jump and then came the crash. Our for a customer. The Potter firm tried car went through the other like it was built of paper."

GREAT FORCE OF THE COLLISION.

THE LOUGHUS

In some way a connection was established and out of the slot for a distance of twenty fect spouted a sheet of blue flame that reached to the "L" although Judge Parker's speeches are all to be short, they will not lack fire. He is going to discuss the pregnant issues in every speech he makes during the week and he is going at the situal issues in every speech he makes during the week and he is going at the situal issues in every speech he makes during the week and he is going at the situal issues in every speech he makes during the week and he is going at the situal issues in every speech he makes during the week and he is going at the situal issues in every speech he makes during the week and he is going at the situal issues in every speech he makes during the week and he is going at the situal issues in every speech he makes during the week and he is going at the situal issues in every speech he makes during the week and he is going at the situal issues in every speech he makes during the week and he is going at the situal issues in every speech he makes during the week and he is going at the situal issues in every speech he makes during the week and he is going at the situal issues in every speech he makes during the week and he is going at the situal issues in every speech he makes during the week and he is going at the situal issues in every speech he makes during the week and he is going at the situal issues in every speech he makes during the week and he is going at the situal issues in every speech he makes during the week

campaign will be tremendously alded by this step.

Judge Parker will speak about a half hour to-morrow night and to-morrow night in Newark he will speak about the same length of time. At Jersey City he will talk about fifteen or twenty minutes. The speeches on Wednesday night at the West S.de Independent Club's meeting at Carnegie Hall and the German-American meeting at Cooper Union will consume about twenty minutes each. Although no speech has been prepared for Bridgeport, where Indga Parker and his party are to hunch on their way to New Haver and Hartford, it is believed if the Demotracy of the city are insistent enough it has will get a few words out of the candidate. There will be an informal preception at Bridgeport, anyway.

Judge Parker will address the Yale students at New Haven on Thursday afternoon and will also have a reception. His speech at Hartford will probably be the longest of his tour, for he will talk about forty-five minutes.

Charles F. Murphy, Lammany leader, was asked this morning if he had any comment or prediction to make in view of the plurality of 129,000 estimated for Judge Parker in Greater New York by same of this morning's newspapers. His reply was:

"I shall not make it any less than

BANKERS ENJOINED

& Co., of New York, from establishing Transit Company and United Raffways Offered Company assets, was granted to-day by Judge Flaher in the St. Louis Circuit Court on application of attorneys for Louis A. Cella, S. W. Adler and C. A. shares of the St. Louis Transit Company stock.

The Court was asked to set aside the reorganization of the two companies on the ground that the "whole scheme was induced to go into it through misrepresentation, deception and fraud on the part of Brown Brothers, wno designed the to appropriate the assets of the Transit Company, which assets greatly exceeded in value the inbebtedness of the corporation."

A decision on this will be made when the case is heard on its merits.

SUBWAY EXPRESS

Sceres of Persons See Southbound Train Hurl Christopher Frawley Thirty Feet at the Fourteenth Street Station.

The first fatality on the Subway since t was opened to the public occurred today at the Fourteenth street station. Christopher Frawley, an electrician, was struck by a southbound express in sight of hundreds of passengers and

Union Switch and Signal Company, which concern installed the automatic ng the signals they require constant

In his regular tour of inspection Frawley reached the north end of the station honored by it, but of all of it nothing at Pourteenth street to-day just at the was so interesting or attracted so much close of the downtown rush. He was attention as the score or more of relooking over the signals at the end of unions of old classes held on the he platform when he heard the whistle campus. of an approaching train.

Train Around a Curve.

There is a curve at the station and the train was not visible. Frawley judged from the sound that it was a keal. He could have climbed to the platform, but instead stepped across on the express track. Just then a couthbound express approached on the other side of the island platform. The Thousands of alumni present came express whisked out of the darkness from far away points, not a few having before he could move. The motorman fornia for the occasion. Hardly a State saw him and applied the emergency in the Union was unrepresented, and brake. So quickly did the train come among the old "grads." were many men to a stop that all who were standing long past the traditional three score and those who were arising from their and ten, but just as jolly as the young scats to leave at the station were hurled fellows in their frolics over the campus. from their feet and landed in heaps at o'clock with the laying of the corner-
